GOAL 4 - Inclusive Leadership At All Levels (1 group left before this session)		5		
RESULTS	3	12	5	3
OVERALL RESULT		DEVELOPING		

Some comments and feedback from the facilitated group discussions from participants at the grading event:

- “More community engagement.” – this was an ongoing theme from a number of the groups.
- “Engage with schools.”
- “Better community engagement can lead to better recruitment opportunities.”
- “Education, collaboration and connectivity to improve service to communities.”
- “Strong focus on needing more support for communicating with the deaf community/patients.”
- “Training to be given to support staff in communicating with sensory impaired individuals – as they sometimes struggle to explain how they are feeling.”
- “Recommend that the Trust links in with local groups to test out any initiatives to check they are fit for purpose”.
- “Showcase more diverse workforce.”
- “Difficulties with NHS job website (dyslexia friendly?) – advertise in community groups.” People don’t realise our jobs are advertised on NHS Jobs and are therefore missing some opportunities.
- “Perception is that careers are limited – the Paramedic role is still viewed as an Ambulance Driver.”
